

# YOU ARE INVITED TO HELP SHAPE THE FUTURE OF POLICING IN THE CITY!

In 2019, the City of London Police identified a need for a new **Digital Police Box**. In 2020, following a competition, a design for a re-imagined police box by architects Unknown Works was selected. The proposal prioritises interaction between the police and public.

**Now, we need your input!** As somebody who lives, works in or visits the City of London, we need to test the emerging Police Box proposals with you, so the design can be developed to support the needs of the community it will be serving.

We'll be asking:

- In what ways can the new police box be genuinely useful to the public?
- What would make the box feel approachable and usable?
- Where do you think boxes are most needed?
